

Kantarell Floor Lamp

Archetypes are reimagined through the contoured silhouette and technical elegance of the Kantarell Floor Lamp, a distinctive piece with timeless potential. The reflector functions like an inverted funnel, effectively spreading the light outward from the almost hidden light source at its centre. The light is activated with a simple gesture — a gentle touch of a seamlessly integrated button, ensuring a smooth and pleasant interaction. The driver is discreetly stowed away at the plug, which makes way for an incredibly sleek design, distinguished by precision and fluidity.

Product highlights

- Available in two color options: black and nickel-plated.
- Compliant with CE, RCM and ETL standards for use in both EU, UK, AU and US markets.

Product Type

Floor Lamp, Lighting

Designer

Falke Svatur, 2025

About the Designer

Norwegian designer Falke Svatur studied industrial design in Sydney, and after two years working as a designer in Copenhagen, he started his own practice in Oslo, his native Norway. His process as a designer is a hybrid between analogue and digital, where the development of ideas always starts with sketches on paper. Falke sees design as a perpetual process of maturation, where ideas need to rest and mature to ensure they stand the test of time. His work often explores the tension between utility and abstraction, drawing inspiration from everyday objects and forgotten gems of the past. Through material experimentation and a hands-on approach, he creates objects that invite reflection through their tactile and sculptural presence.

Environment

Indoor

Country of Origin

China

Assembly Requirements

The base and shade are screwed onto the center pole.

Material

Nickel-Plated:

Kantarell's LED board is discreetly housed within a die-cast aluminum cup that also serves as a heat sink. The reflector is crafted through metal spinning and the base is made from steel. Both the LED cup and the base are finished with a nickel-plated surface treatment, providing enhanced resistance to corrosion and wear. The interior of the reflector is powder-coated white.

Black:

In the black finish, Kantarell's LED board remains concealed within the die-cast aluminum cup, which doubles as a heat sink. The reflector is spun, and the LED cup, base, and top of the reflector are finished with black powder coating, while the interior of the reflector maintains a white powder-coated surface.

Light Source included

Yes

Cleaning & Care

Turn off the electricity before cleaning the lamp. Wipe the product with a soft dry cloth. Do not use any abrasive cleaning tools, and never use strong cleaning agents such as household glass cleaner, white spirit, or turpentine.

Dimensions

Height: 1270 mm / 50"
Width: 550 mm / 21.6"
Depth: 550 mm / 21.6"

Packaging Dimensions

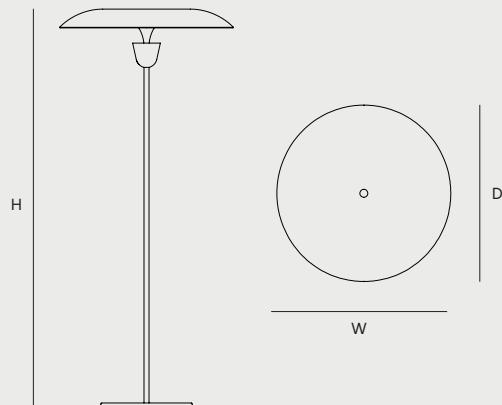

Height: 320 mm / 12.6 "
Width: 1130 mm / 44.5"
Depth: 700 mm / 27.6"

Weight

17.8 kg / 39.2 lbs

Weight Incl Packaging

18.5 kg / 40.8 lbs

**Versions**

Item No: 22151
Variant: Nickel Plated

Item No: 22150
Variant: Black

Lamp Rating

Voltage: CE: 220-240 V, ETL: 110-120 V
Frequency: 50/60 Hz
IP-Rating: IP20
Classification: Class II

Light Source Specification

Item: Integrated LED
Watt: 12.1 W
Lumen: 1000 lm
LED Lifetime: 50000 h
Kelvin: 2700
CRI: 93.5
Dimmable: Yes

Tests & Certificates

Lighting Certifications
CE, ETL, SAA, FCC
